

Friday February 8, 2013 Morning Session

6:30-6:55 Registration and Case Discussion
6:55-7:00 Welcome and Introduction-Mazzocca
NESES invited Guests

Dr Pascal Boileau MD Nice FR

Dr Bernie Morrey Rochester MN

Friday 7-8am: Elbow 1: Arthritis/Stiffness

Provocateurs: David Ring, Jeff King

Guest: Bernie Morrey

Panel: Eric Tolo, Luke Oh, Andy Caputo, Green, Kimball

ASES Survey Results

Post-traumatic arthritis, young, active patient.

Hotchkiss ligament on arthroplasty

TEA after trauma

Indications

How young is too young?

Does the prosthesis choice matter?

Stage in case of colonization?

Management of the painful TEA

Stiff elbow

Timing

Open vs. arthroscopic

Post-op management

8:00-8:15 Break

Shoulder Instability SLAP- Case based discussion

Mazzocca- Provocateurs

Panel-Boileau/Olson/Warner/Higgins/Veltri/Edgar/Busconi

8:15-8:30 When is labral repair good enough (**Busconi 5min talk 10min discussion**)

8:30-8:45 Arthroscopic bankart-we ain't as good as we think we are (**Case Discussion**)

8:45-9:00 Failed Instability surgery-Now what (Open, Arthroscopic, Bone Graft, etc.)
(**Higgins 10min talk 5min discussion**)

9:00-9:15 The 13yo female with shoulder pain-what to do (**Veltri 5min talk 10min discussion**)

Debate

9:15-9:40 54yo tennis player with SLAP (**I fix it-Macy**)- debride and tenodesis-(**Boileau**)

9:40-10:00 What is posterior Glenoid Version?How do you measure and what does it mean
(**Edgar**)

Friday February 8, 2013 Afternoon Session

Friday 3:00-3:45pm, Elbow 2: Tendon/Enthesis/Ligament:

Provocateur: David Ring

Guest: Bernie Morrey

Panel: George Dyer, Eric Mullins, Chuck Cassidy, George Kasparyan

ASES Survey Results

Lateral epicondylitis: New treatments

PRP

Tenex (wrist level shock absorber)

Distal biceps:

Placement on tuberosity

Strength of fixation

Post-operative management

Op vs. non-op

UCL insufficiency:

Indications

Instability vs. pain. Indications for ligament reconstruction.

Allograft vs. autograft

Fixation technique

LCL insufficiency (same issues)

3:45-4:00 BREAK

NESES 10th annual Invited Lectures

Mazzocca-moderator

4:00-4:20 NESES/ASES presidential Lecture JP Warner

Value Based Shoulder Care: What does this mean for your patient and your patient

4:20-4:30 Questions

4:30-5:05 NESES Invited Elbow Lecture- Dr Bernie Morrey

Managing Complex Instability of the Elbow

5:05-5:15 Questions

5:15-5:50 NESES Invited European Shoulder-Dr Pascal Boileau

Decision making process for Anterior Shoulder Instability

5:50-6:00 Questions

Saturday February 9, 2013 Morning Session

6:00-6:15 Case Presentation and Question Period

6:15-7:00 **Resident and Fellow Presentations Arciero-Warner Research Award**

7:00-8:30 **Difficult Questions in Shoulder Arthroplasty**

Moderators- Endrizzi

Panel-Macy/Warner/Parsons/Green/Blaine/Shea/Boileau

7:00-7:20 Changing role of ORIF vs hemi vs reverse for proximal humerus fracture-
Endrizzi case leader(20min)

7:20-7:28 Glenoid Exposure-the basic and complex-**Macy(8min)**

7:28-7:36 Glenoid Failure-**Green(8min)**

7:36-7:44 Tips and Tricks converting a hemi to a reverse-Version, stability, ect
(Warner 8min)

7:44-7:52 Failure of Reverse-now what? **(Boileau 8min)**

7:52-8:15 Endrizzi Case presentation and Discussion (23min)

80 yo with severe djd and cuff intact-primary or reverse (attritional cuff failure)

65 yo with no djd and large retracted rotator cuff tear-repair or reverse?

8:15-8:30

5min Pro- Parsons-Reverse arthroplasty should not have a different age criteria than primary as the durability is expected to be comparable

5 min CON Blaine-We should stick to the 70 plus rule established by the French due to concerns of hardware failure

10 min Discussion

8:30-9:00 **AC and SC joint issues-** Deangelis N and Deangelis J

Part 1 defining the Topic - Classification of AC injuries

what is what (when is a 3 a 3, or a 5, or an 8) how do you decide

what tests do you get (weighted zanca, bilateral zanca, stressed xrays, MRI and of course, does it matter

Part 2 Treatment - When to operate, when not to operate

Absolute Indications - if they exist Relative Indications -

Things to look for (cranial/caudal and anterior posterior displacement, signs of dysfunction - plexopathy

Consequences of Early vs Delayed Treatment vs no treatment

Part 3 - If you operate on AC joint injuries, what to do

bosworth and other screws

tight rope or cheaper knock-offs,Cables,Soft Tissue augments, Hook Plates

Part 4 - Thank God SC joint injuries are Rare

What to look for, What's really worrissome

If you have to go there, get a Thoracic surgeon and proceed carefull

9:00-9:15-BREAK

9:15-10:00am Elbow 3: Trauma

Provocateurs: David Ring, George Dyer

Guest: Bernie Morrey

Panel: Adam Shafritz, Jeff King, Michel Benoit, Paul Sethi, Andy Green

ASES Survey Results

Radial head fracture

Radial head fracture case: ORIF vs. replacement

Stiff elbow after radial head prosthesis

Which radial head prosthesis?

Principles of delayed treatment of elbow fractures

Isolated radial head partial fracture

Capitellum/trochlea

Elbow dislocation

Proximal ulna fracture

Anteromedial facet coronoid fracture

Saturday February 9, 2013 Afternoon Session

Rotator Cuff

Moderator-Mazzocca

Panel-Bell, Elhassan, Curtis, Sethi, Alberta

- 3:00-4:00 Failed Rotator Cuff tear in a 50 yo-what to do ARCR, Patch, Lat?
Biologic treatment of rotator cuff repairs (PRP, Stem Cells, Grafts, NO, MMP
inhibitor (Doxy)
- 4:00-5:00 Tendon Transfers around the shoulder-**Basem Elhassan MD Mayo Clinic**
Who is the ideal candidate for a lat transfer
- 5:00-6:00 Adolescent Shoulder and Elbow-**Moderator-Busconi and Nissen**
Panel-Sethi, Ramappa, Ring, Caputo, Alberta, Oh
- 6:00-7:00 **NESES Meeting**
Treasurer State of the Union
